

THE MUSEUM OF NORTH CRAVEN LIFE

TEN YEARS OF EXHIBITIONS

The Folly is the third and we hope the final home of the Museum of North Craven Life. The Carnegie Exhibition 'Life in North Craven' started life in 1980 in the Victoria Street premises and has been updated twice before it arrived in the Folly.

The Trustees decided at the outset that an important means of attracting visitors and repeat visits by local Craven residents is through an annual programme of special exhibitions about aspects of Craven or of work by Craven artists.
